

PROJECT OVERVIEW, DATA VIZ

Jack Hester, MPH

CEPC 0904

Summer 2022

CORRECTIONS/NOTES

- Pre-recorded video had wrong % expected within SD ranges
- Boxplot summary slide may have been a bit confusing
- Both of these things addressed in Slack
- For small sample sizes ($n < 30$) best practice is to use t over z test, BUT...
 - It's often an even better bet to use nonparametric tests, especially if the distribution is a little wack
 - (Question on the quiz is correct but I might throw it out)

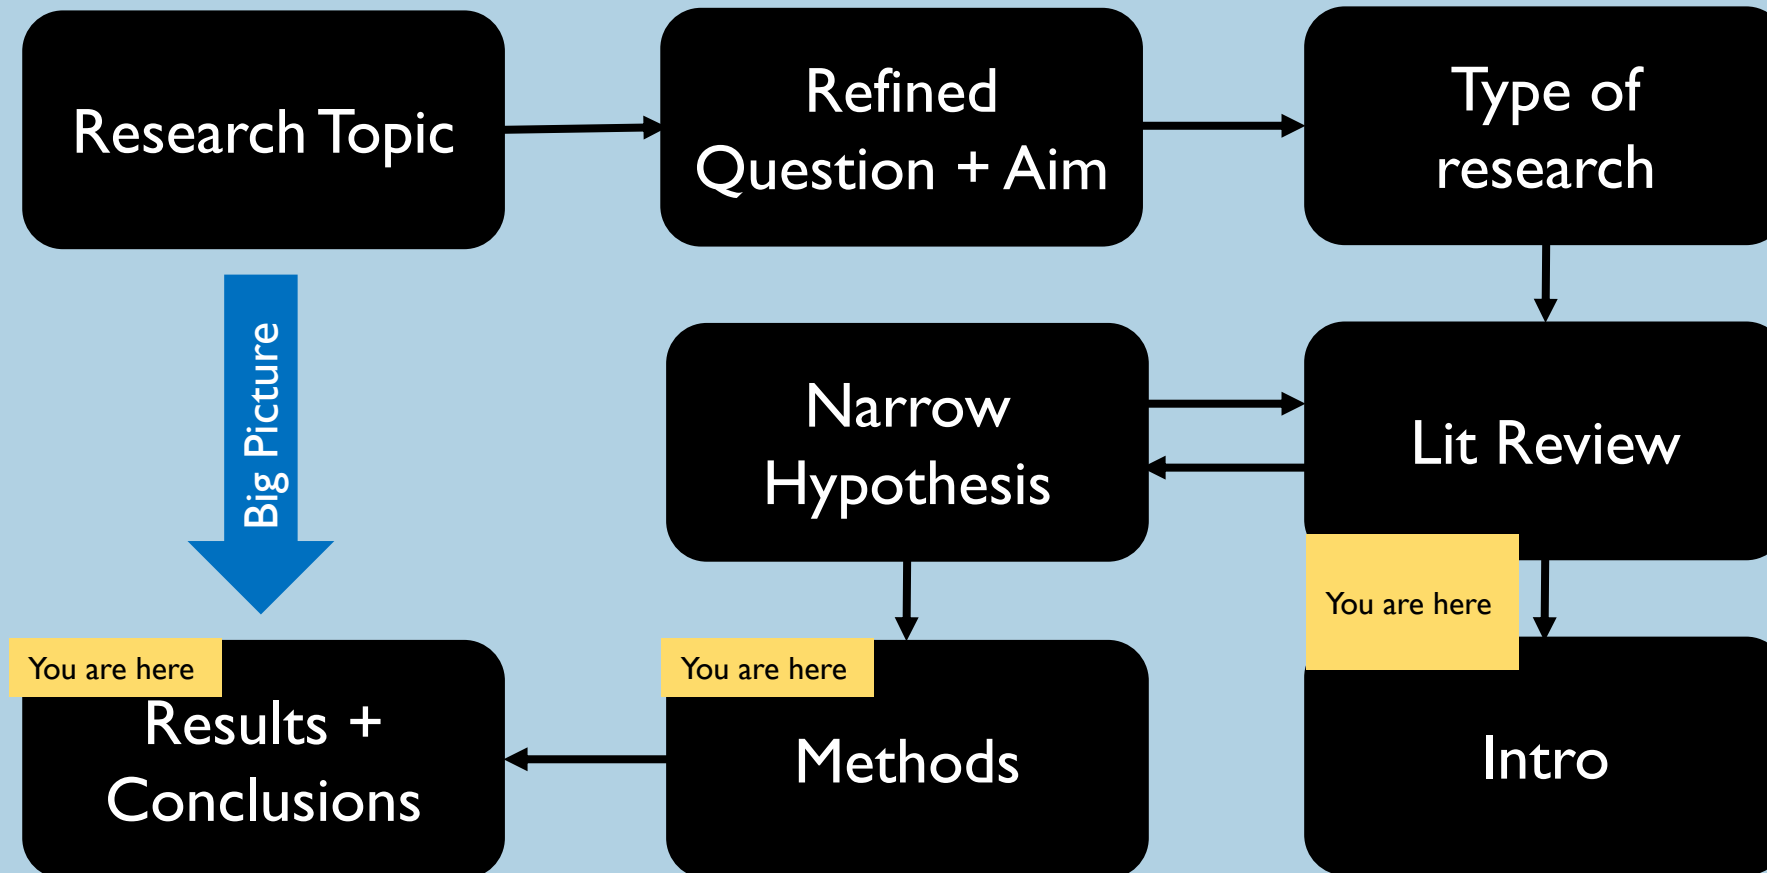

COURSE PROGRESS

- HW 3 should be graded, HW 5 asap
- If HW 1-3, quiz 1-2, or Datacamp are ungraded, let me know ASAP
- If you're behind, let me know what I can do to help!
 - Recommend prioritizing HW assignments relating to project, getting project done, filling in the rest at the end
 - Quizzes have a finite due date/window in which you can take them, so I will need to re-open if you missed one

COURSE PROGRESS CONT.

- Lots due this week/next don't forgor 🦴 anything!
- All remaining HW (6,7,8) project-based
- Quiz 4 end of week
 - Open note/everything, no note submission
- Project check-ins starting tomorrow (look for announcement)
- Projects due next week, presentations!

RESEARCH PROJECT – BIG PICTURE

RECAP: WHAT IS THE FINAL PROJECT?

- Peer-review-publication-like paper
- Your own research (analysis, lit review, etc.)
- Clear sections
- Final presentation next week!
- Due *no later than* August 5 (unless extension previously granted)

DATA VISUALIZATION

WHY DOES DATA VIZ MATTER?

- Data understanding
- Data accessibility
- Data retention
- You're telling a story!

EXAMPLES

BAD 🙈

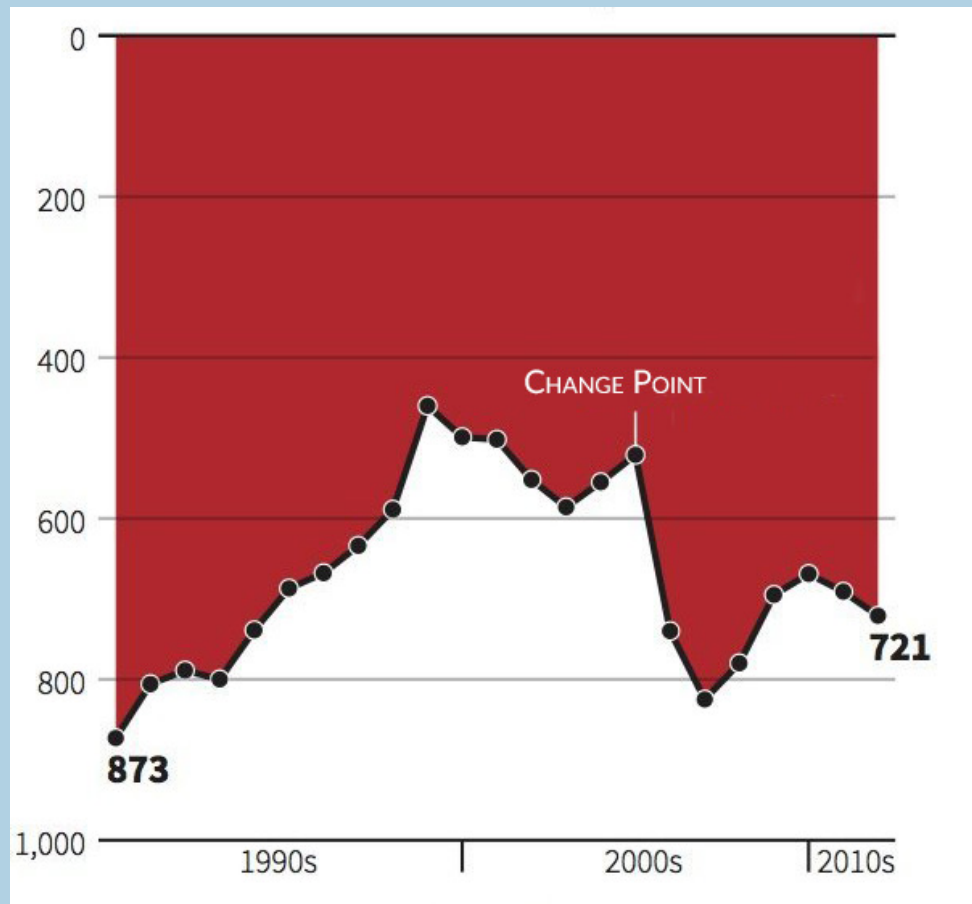

Contributions to Barack Obama in 2011 (without Super PACs)

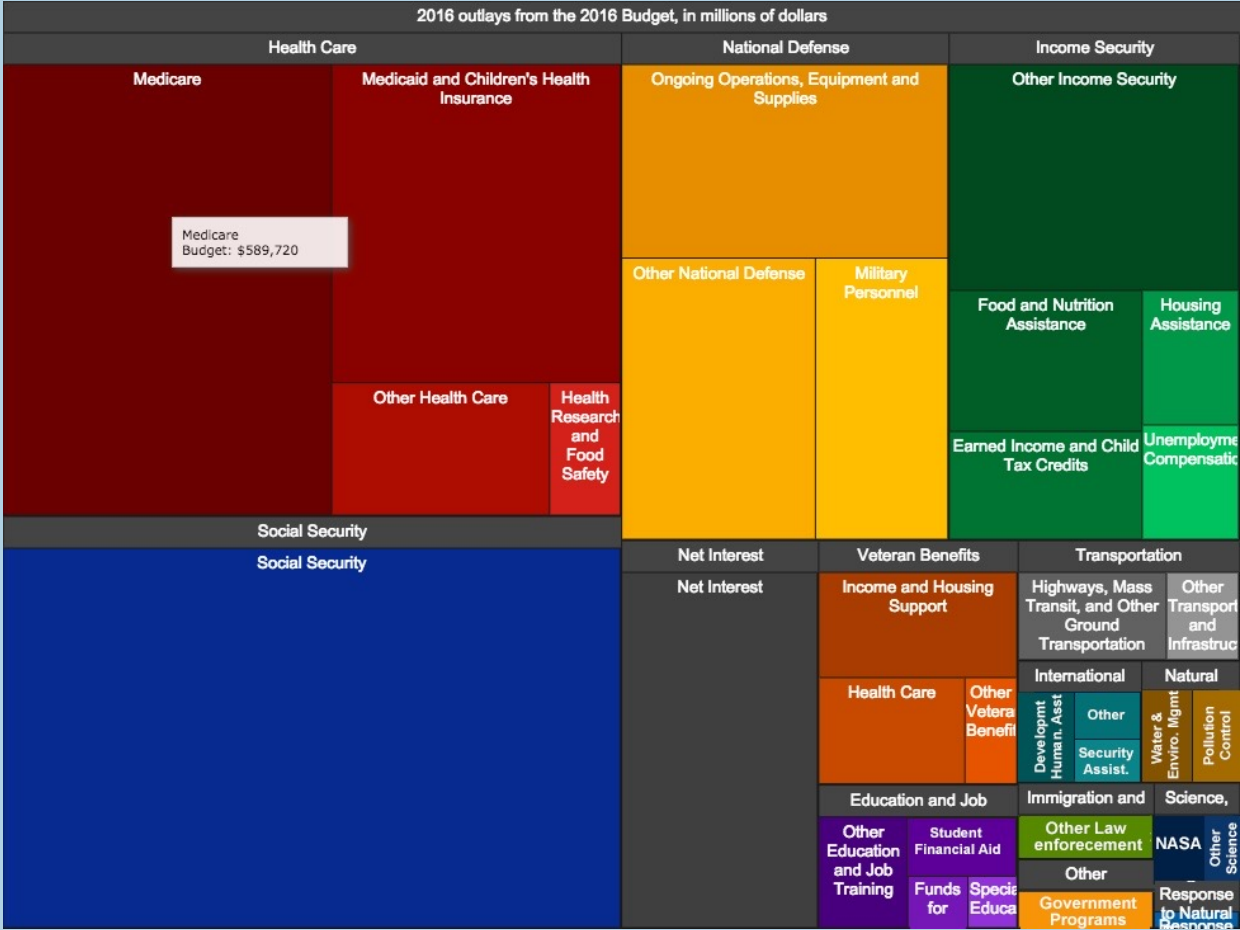

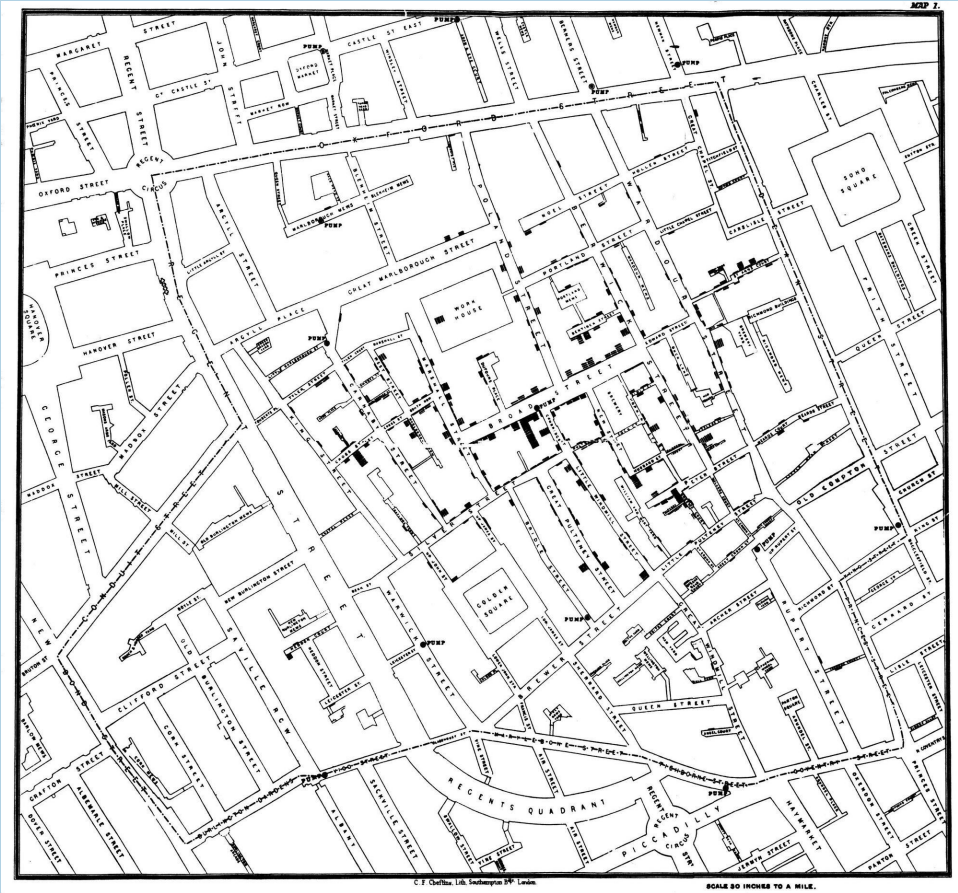

RIP those amputated axes 🙏🕊

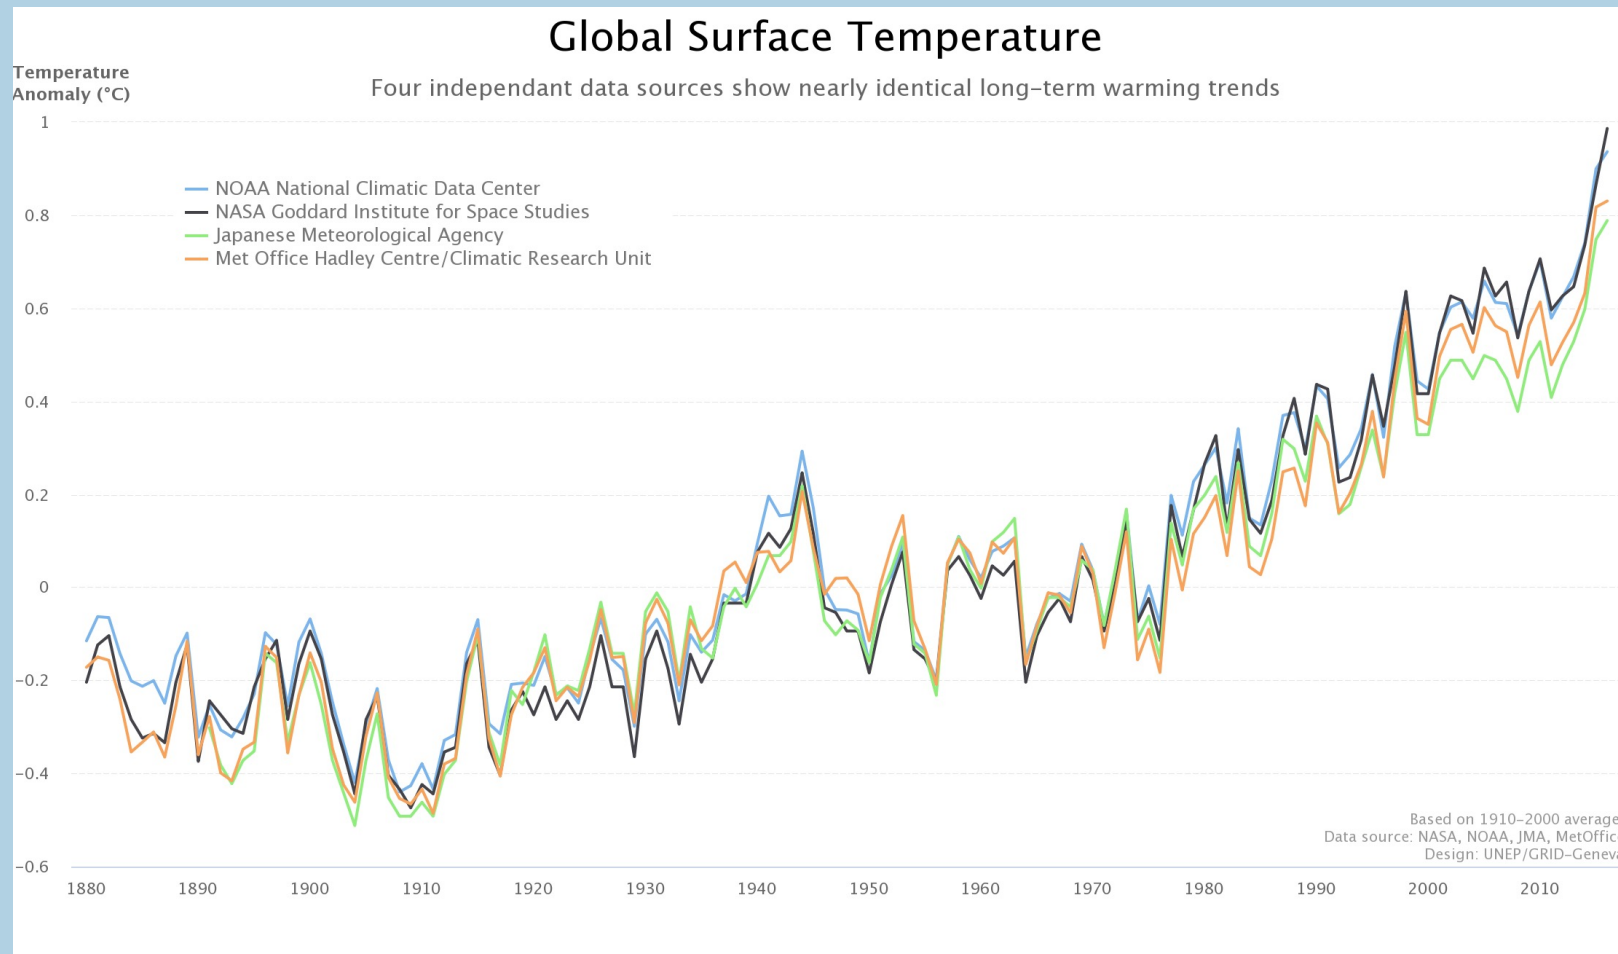

WORSE!

GOOD ON PURRR

ALSO PRETTY GOOD

THIS ONE GOES INCREDIBLY HARD

RELEVANT TO THIS CLASS

- Histograms
- Bar charts
- Scatterplots
- Tables
- Word clouds

ABSOLUTE ESSENTIALS

- Keep it simple
- Value added over text
- Label everything with titles, keys, legends, text, etc.
 - But keep text to a minimum
- Be honest
 - Tell the story, but don't tell a misleading one
- Make it big enough to be readable
